

MACIEJ BUCZEK

Full-Stack Developer

✉ buczekmatthias@gmail.com

🌐 [buczekmatthias](https://buczekmatthias.com)

🌐 mattbuczek.vercel.app

Full-stack developer specializing in Laravel and Vue, focused on creating modern, practical web applications. I care to write clean code, that's easy to maintain and develop. I'm looking for new challenges, thanks to which I'll be able to grow as a developer.

TECHNICAL SKILLS

Backend & Framework: Laravel, PHP, REST API, MVC

Frontend & UI: Vue 3, Composition API, Inertia.js, TailwindCSS, TypeScript

Database & ORM: PostgreSQL, MySQL, Eloquent ORM, Database design, Query optimization

Testing & Development: Pest, Test-Driven-Development (TDD), Git, Github

Tools & Deployment: VS Code, Docker, Linux, Vercel, Figma

PROJECTS

GameSphere

[Github repository](#)

Laravel • Vue 3 Composition API • Inertia.js • PostgreSQL • TypeScript • TailwindCSS

A community-driven platform where gamers can review games, discover new titles, track progress on upcoming games and discuss about games.

- Admin dashboard with 5-month activity chart tracking new users, games, discussions and reviews
- Genre-based browsing with public user profiles
- Content moderation covering reviews, discussions and user reports
- Role-based access with a game creator application and admin approval system

GiveawayForge

[Github repository](#)

Laravel • Vue 3 Composition API • Inertia.js • PostgreSQL • TypeScript • TailwindCSS

A platform for creating and managing giveaways.

- Full giveaway lifecycle — create, manage, and enter giveaways
- Automated scheduling that starts and ends giveaways without need for manual intervention
- Admin panel for overseeing all giveaways and users

BallotBox

[Github repository](#)

Laravel • Vue 3 Composition API • Inertia.js • PostgreSQL • TypeScript • TailwindCSS

A platform for creating and voting on polls.

- Public and private polls with link-based voting
- Multi-choice support with live results breakdown and percentage distribution
- User vote tracking with visual results display
